# TROPICAL AND PARASITIC DISEASES

A REVIEW OF CLINICAL AND LABORATORY MEDICINE

## MÉDECINE TROPICALE ET PARASITIQUE

MISE À JOUR DE LABORATOIRE ET CLINIQUE

**June 2-4, 2008**  
Centre Mont-Royal / Mount Royal Centre  
2200 Mansfield Street, Montréal, Québec

DIRECTEUR DE COURS – J. DICK MACLEAN MD – MICHAEL LIBMAN MD  
EVELYNE KOKOSKIN MSC, ART – COURSE DIRECTORS

### OBJECTIVES

#### CLINICAL SESSIONS JUNE 2-4, 2008

This program will inform clinicians, nurses and laboratory personnel dealing with tourists, overseas employees, immigrants, refugees, volunteers, students and missionaries presenting with health problems acquired in the tropics. It is also a good review for those planning to work in the tropics. The presentations will be primarily problem oriented. Advances in understanding of new etiologic agents, pathophysiology, epidemiology and treatment will be highlighted. The lecture series is limited to 175.

#### LABORATORY SESSION JUNE 1, 2008

A practical hands-on full day clinical laboratory session will take place on Sunday, June 1st. It will highlight the microscopy of intestinal protozoa, helminths and malaria. This session will provide a technical overview of the microscopy of the range of human parasites and is limited to 40 participants.
