Using the dataset lbw1.dta available on the course website, replicate the following graphs (try to do so without using the graph editor):

1.

2.

3.

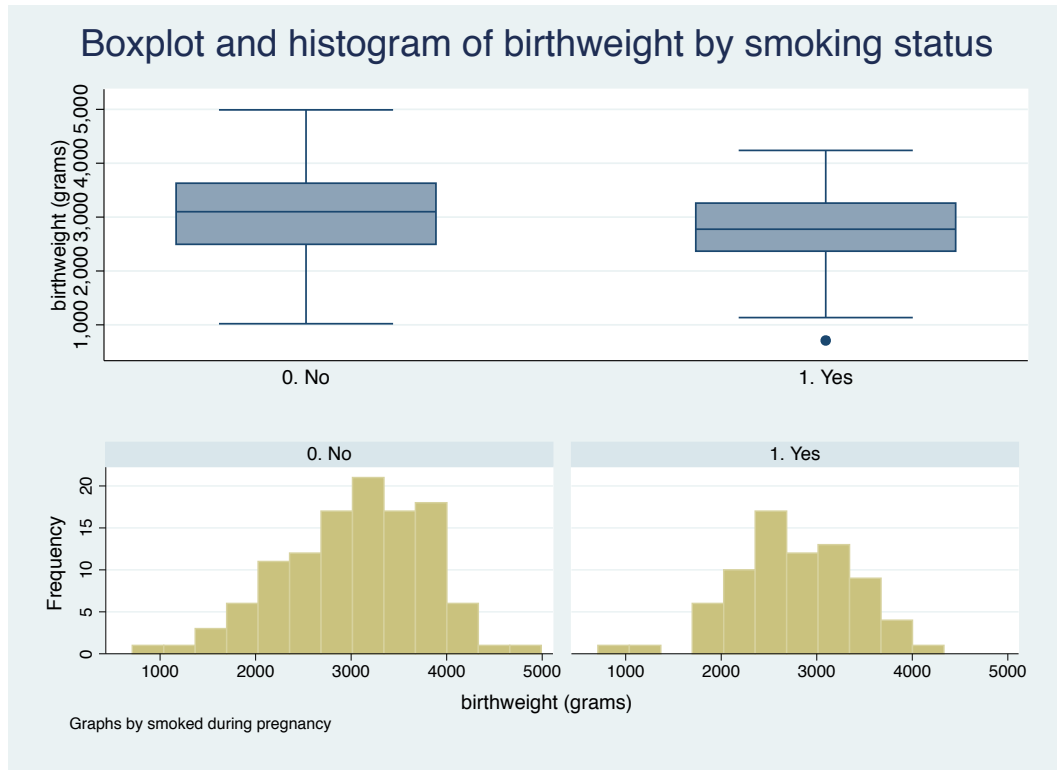

Boxplot and histogram of birthweight by smoking status
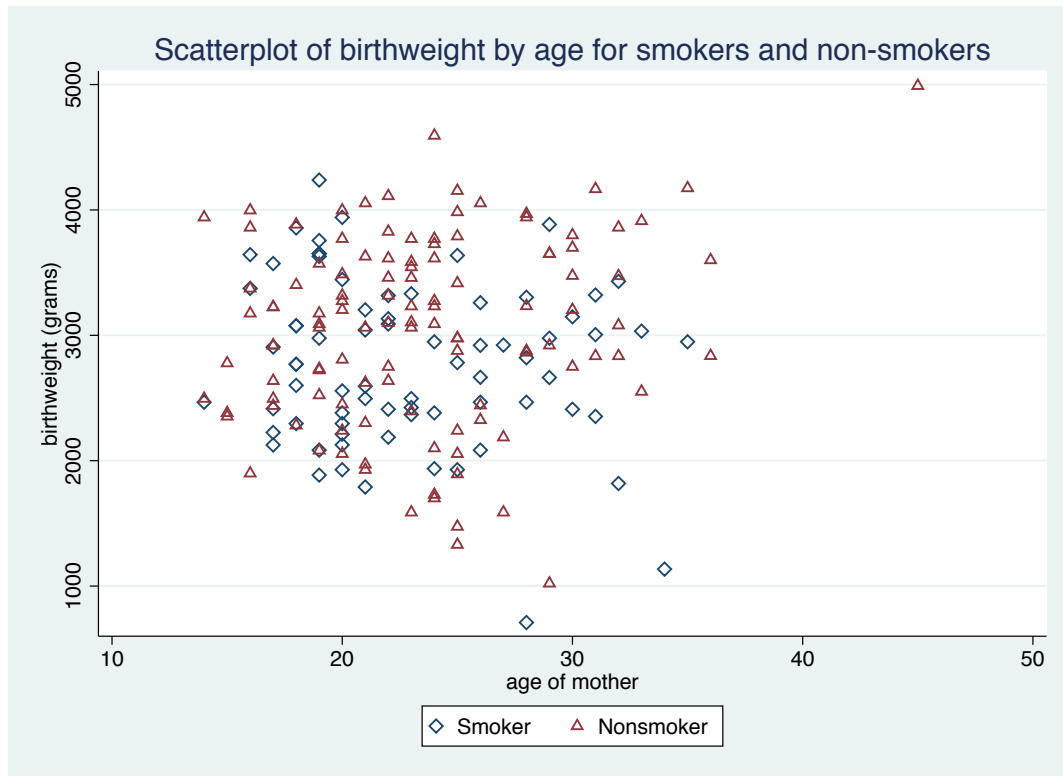

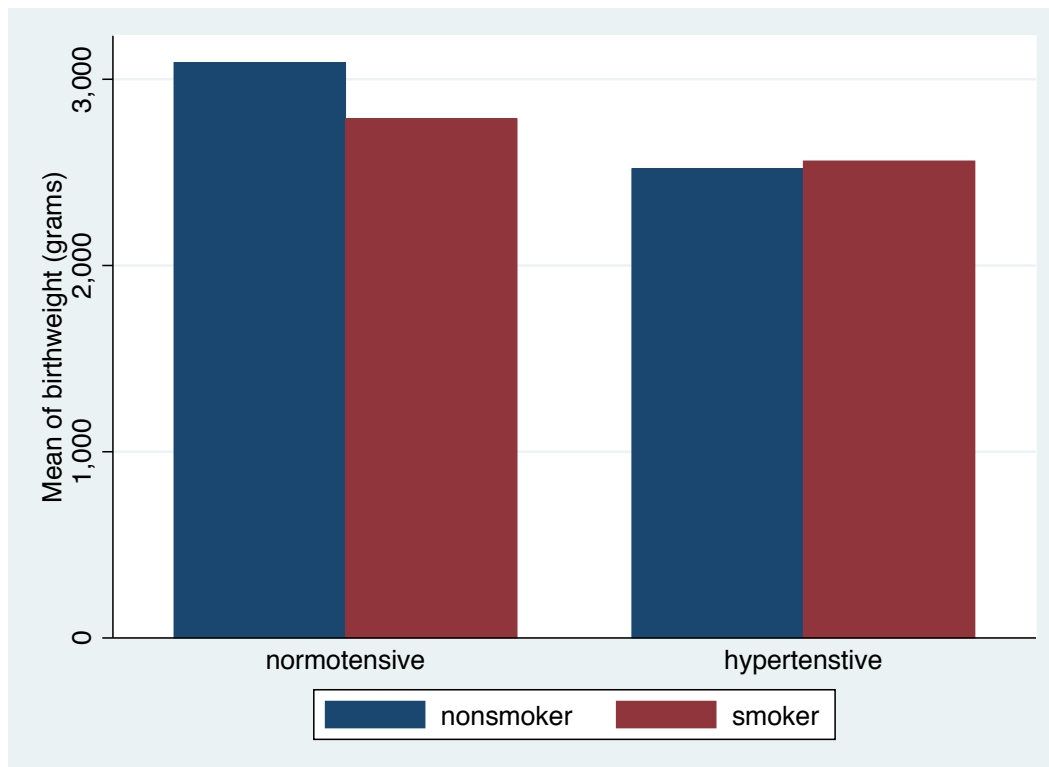

4. Input the following data into Stata:

Patient #	Time 0	Time 1	Dead
1	12	22	0
2	10	20	0
3	2	19	1
4	27	35	0
5	7	36	1
6	20	28	0
7	5	29	1
8	18	38	0

Make a very beautiful dropped-line plot for the 8 patients.
