Discussion Points for Zeros/Ones Trick

- Basic idea of zeros trick

- Basic idea of ones trick

- Sample WinBUGS program for zeros and ones trick

- Mukherjee paper

  - (Page 4 bottom) Advantages of Bayesian approach to Conditional Logistic Regression

  - (Page 14) Section 4 on matched studies

  - (Middle of page 16) Formula for matched case control studies likelihood function

- WinBUGS program for Conditional Logistic Regression using formula from Mukherjee (page 16, no additional covariates case)
