

CANADA

PRIME MINISTER • PREMIER MINISTRE

I am pleased to extend my greetings to the staff and readers of the *McGill Journal of Medicine*.

The only journal of its kind produced by students, this publication plays an important role in promoting vital communications in the realm of medical science and represents a valuable resource for Canada's health care practitioners. Through the pages of the *MJM*, advancements in the ever-changing field of medicine can be more widely, and better, understood.

More than that, the very existence of the *MJM* demonstrates a commendable degree of commitment on behalf of its creators, and, in that spirit, I believe that the *MJM* will continue to guide, inform and inspire its readers. I wish it every success, now and in the future.

Please accept my kindest regards.

A handwritten signature in black ink, reading "Jean Chrétien".
