The 12th Annual Symposium has been established as part of the Hepatico Pancreatico Biliary and Transplant Surgery Program at McGill University. The program pursues a multidisciplinary approach to numerous aspects related to the development, staging, and treatment of hepatobiliary disease.

Target Audience:
Designed for all physicians, surgeons, scientists, nurse clinicians and transplant coordinators with an interest in benign and malignant hepatic, pancreatic and biliary disease.

Goals & Objectives:
The symposium aims to provide physicians and nurse clinicians with the current data regarding diagnosis, treatment strategies, surgical techniques, and outcomes relevant to the management of patients with benign and malignant hepatic, pancreatic and biliary disease.

Location of Events:
1. Symposium
   Centre Mont-Royal
   2200 Mansfield Street
   Montreal, Quebec H3A 3R8

2. Cocktails and Dinner Reception
   BEATRICE Restaurant
   1504 Sherbrooke Ouest
   514-937-6099

3. Multidisciplinary Surgical Grand Rounds
   Montreal General Hospital
   6th floor Cedar Avenue Entrance
   Sir William Osler Amphitheatre
